## Objective

I'm a curious and adaptable Software Developer with hands-on experience building web, mobile, and backend systems. Over the past 2 years I've worked on both modern applications and legacy system upgrades, which taught me to balance clean architecture with practical problem-solving. I enjoy collaborating with teams, learning fast, and delivering solutions that make work easier for people.

## Skills

- Backend Development: C#, .NET Core, ASP.NET MVC, Node.js, LINQ, REST APIs
- Frontend Development: React, Vue.js, JavaScript, HTML, CSS, Bootstrap, Material-UI
- Databases: SQL Server, MySQL, PostgreSQL, MongoDB
- Cloud & DevOps: Azure DevOps, AWS Lambda/SQS, Docker, Kubernetes, CI/CD
- Testing & QA: Unit testing (Moq), manual & automation (Selenium, Postman), UAT support
- Other Strengths: Agile teamwork, requirement gathering, documentation, problem solving

## Experience

- **Muntumi Technology** Jan 2024 - Present  
Software Developer
  - Took projects from requirements to production, ensuring features added real value to end users.
  - Improved backend performance with .NET Core & LINQ (cut query times by 35%).
  - Built secure payment processing features in ASP.NET MVC for web & mobile.
  - Worked on AI/ML modules using Python, OpenCV & TensorFlow to track player movements and detect match events.
  - Enhanced UI/UX with React and Bootstrap for vendor-facing platforms.
  - Automated workflows using AWS Lambda, reducing repetitive manual tasks.
  - Set up Docker/Kubernetes pipelines, making deployments smooth and reliable.
  - Automated workflows using AWS Lambda, reducing repetitive manual tasks.
  - Set up Docker/Kubernetes pipelines, making deployments smooth and reliable.

## Consulting Projects (Jan – Aug 2025)

### National Research Foundation :

- Upgraded research system using .NET 8 & Vue.js across multiple project phases.
- Fixed recurring bugs, enhanced system functionality, and improved user experience.
- Implemented CI/CD pipelines, reducing deployment time and increasing reliability.

### Council on Higher Education:

- Automated invoicing, reminders, and workflows using SMS/email integrations.
- Streamlined finance operations across several tasks, improving accuracy and efficiency.
- Collaborated with stakeholders to optimize processes and resolve system issues.

### Midvaal Municipality (Web Upgrade):

- Revamped municipal website with WordPress & PHP, improved mobile UX, SEO, and accessibility.
- Supported integration, bug fixing, and database optimization across multiple clients.

- **Informatics Community Engagement Project** June 2023 - Dec 2023  
Business Analyst Trainee & QA Tester (Internship)
  - Gathered and documented requirements with stakeholders.
  - Designed and executed manual & automation test cases using Selenium and Postman.
  - Logged defects, supported UAT, and worked with devs to resolve issues quickly.
  - Helped bridge the gap between business needs and technical delivery.

## Education

- **Tshwane University Of Technology**  
National Diploma IT: Business Applications

2024

## Certifications

- HackerRank Certificate – Problem Solving (Basic)  
<https://www.hackerrank.com/certificates/iframe/e86b0661a7f2>  
  
Issued by HackerRank – July 2025
- Diploma in Software Testing (Completed – Certificate Pending)  
Alison | Completed: July 2025
